

STANDARD & COMMERCE GROUP

AFFILIATE OF STANDARD OIL COMPANY

<http://standard-oil.com/intro.html>

STANDARD & COMMERCE GROUP (SCG) with its extensive technical, financial and management resources cooperates with and invests in projects and companies that have advanced energy, environmental and engineering technologies.

SCG commercializes the demand for those technologies globally with utmost diligence and efficiency.

SCG invests proprietary capital and through various affiliates, subsidiaries, and structured investment vehicles. **SCG** among others arranges and manages equity investments primarily in the area of alternative assets – i.e. infrastructure, public private partnerships, property, private equity and high yield debt for retail and wholesale investors.

SCG operates as a diversified holding company. The primary objective is to acquire and build a diverse portfolio of businesses and assets that have potential for exceptional and consistent growth in value.

SCG pursues new creative and socially responsible ways to invest capital.

Whether it is funding alternative investment strategies, financing environmental technologies in energy and oil sectors or by direct participation in project financing transactions, **SCG** has committed significant amounts of capital and know how in a wide spectrum of specialized assets that it believes possess compelling potential for growth.
